

MonLines MLS026B / MLS027B / MLS028B

Built-in TV lift

Description

The electric built-in TV lift from MonLines can be retracted into a piece of furniture. By pressing a button on the supplied radio remote control, the screen can be extended. Favorite positions can be easily saved. Thanks to the anti-collision function, the TV is protected from possible damage. There is also a separate socket for the TV's power connection. When the TV lift is retracted, the TV is simultaneously disconnected from the power supply for additional safety. The integrated cable management ensures a tidy interior.
