

MonLines mySwing MSM06 electric TV wall mount up to 65 inch

Description

The electrically swiveling TV wall mount from MonLines is suitable for TVs with a size of up to 65 inches and a maximum weight of 30 kg. To set the ideal viewing angle, it can be swiveled 180° to the left or right and manually tilted 7 degrees. No additional remote control is needed to control it, as the TV mount is compatible with most infrared TV remotes. A preferred angle can be preset on the remote and recalled later with a simple push of a button. Alternatively, the TV wall bracket mySwing MSM06 can also be controlled via smartphone or Smart Home applications such as Google Home and Amazon Alexa using the separately available MonLines MSM07 WLAN adapter.
